## AGENDA

- Cluster analysis
  - Clustering Strategies
  - Reintroducing the Outliers or New Observations

Instituto Superior de Estatística e Gestão de Informação

## Clustering

- **Profiling (size of the clusters)**

```
graph LR; A[Hierarchical clustering to define the number of clusters] --> B[Partitioning algorithms (k-means) to find the best solution]
```

Hierarchical clustering to define the number of clusters

Partitioning algorithms (k-means) to find the best solution

Instituto Superior de Estatística e Gestão de Informação  
Universidade Nova de Lisboa

## Clustering

- **Profiling (size of the clusters)**

Partitioning algorithm (k-means) with a large number of clusters

Hierarchical algorithm to find the appropriate number of clusters

Instituto Superior de Estatística e Gestão de Informação  
Universidade Nova de Lisboa
